

Complex cases got you confused?

Not sure how or where
to take action?

We can help!

Calling all Support
Coordinators and
Specialist Support
Coordinators!

You're invited to participate in online complex case reviews with your colleagues...

We are smarter together right? So lets share knowledge and experiences in a setting where we can explore and examine de-identified cases. There are no limits or expectations on case reviews, other than we work through a scenario that you've encountered in your role.
